

WAYNE KAMACHETERA

JUNIOR SOFTWARE DEVELOPER • FULL-STACK WEB DEVELOPER • IT SUPPORT

Gauteng, South Africa | 068 683 3028 | wayne.kamachetera@gmail.com
Portfolio: zannii34.github.io | GitHub: github.com/Zannii34 | LinkedIn: linkedin.com/in/wayne-kamachetera

PROFILE

Junior developer with practical experience across front-end and back-end web development, Python/Flask, Django project work, JavaScript, APIs, SQL/SQLite databases and technical support. Comfortable debugging, adding features, building data-driven systems and supporting Windows/networked environments.

EXPERIENCE

IT Technician / Security Systems Assistant - MazeTech Hub

Part-time | 2023-2026

Assisted with CCTV, access control, intercoms, camera installation, cabling, basic networking, Windows support, device setup, fault finding and technical troubleshooting.

Software & Web Development - Project Work

Portfolio | Coursework | Personal Projects

Built responsive websites, REST API applications, Python/Flask systems, Django task workflows, SQL/database features, productivity tools and AI/algorithm demos.

Data Capturing & Digital Administration

Technical capability

Comfortable capturing, organizing and checking structured digital information using forms, spreadsheets and database-backed systems.

SELECTED PROJECTS

MazeTech Hub Website & Admin System - Full-stack Flask business system; final testing, security hardening and interface polish.

Business Admin & Quote System - Flask, SQLAlchemy, SQLite, quotation/customer workflows and dashboards.

MK Construction & Projects - Responsive business website, branding, gallery and enquiry flow.

Pokémon Explorer - PokéAPI search/filter app with persistent team builder.

Weather Dashboard - Open-Meteo city search, geolocation and forecast.

Tic-Tac-Toe AI - Minimax-based adversarial search demo.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL, C
Backend: Flask, Django, Node.js/Express (basic), REST APIs

Data: SQLite, SQLAlchemy, CRUD, database workflows

Tools: Git, GitHub, VS Code

IT: Windows troubleshooting, basic networking, device/peripheral support, data capturing

EDUCATION

IT Programming Programme - UniCollege

2025 | Coursework undertaken; qualification not awarded.

Coursework included web development, JavaScript, Python, software development, HTML5 application development, AI, databases and computational thinking.

National Senior Certificate (Matric)

Queens Park Schools | 2024

COMPLETED CERTIFICATES

UniCollege (2025):

- Introduction to Programming using Scratch
- Introduction to Computer Science
- Introduction to Programming using Python
- Introduction to Artificial Intelligence with Python

STRENGTHS

Problem solving • Debugging • Troubleshooting • Fast learner • Attention to detail • Teamwork • Independent task ownership
